

Juan David is a child in Medellin, Colombia that is in need of multiple things to live a happy life. In this essay we will give information about Juan David's needs and how to help him. The things that he needs are finding him better education, clean water, and better healthcare. Now we will start telling you why he needs these things.

Juan David needs better education, because he needs to graduate high school. So, he can possibly get into medical-school. So, he can be a doctor when he grows up. Another reason why Juan David needs better education is because he needs to be smart enough to know what to do in life and know what is right and wrong. Overall Juan David needs better education to help ensure he meets his final life goals.

Our child Juan David needs clean water to help him through his every day challenges. He will be more productive when help is needed. With clean water he will be able to avoid diseases that may cause illness. So, overall Juan David needs clean water so he can be his best self in his every day challenges.

Juan David needs better healthcare, because his parents want him to be healthy. Another reason why he needs healthcare is because the city that Juan David lives in, has a lot of violence and if anything ever happened, he would be able to get help. In the end Juan David needs healthcare so he can be healthy and feel safe.

Juan David needs to find better education, clean water, and better healthcare. We wrote this so we could inform people on how to help Juan David. If Juan David obtains all of his needs it can set him for his journey through life.
